Compile

Deliver

ViewletBuilder - the easiest way to create animated presentations - no programming required!

Captivate your audience with compelling software demos, simulations, tutorials, virtual tours and visual FAQs with the original Flash authoring tool.

Create animated content in minutes

Watch how ViewletBuilder takes a series of screenshots, merges them together with annotations and with one click, will compile them for a finished presentation. From start to finish in minutes!

Professional results

Create first-class quality in record time. Features like spell-check, interactive zones, effects and so much more contribute to the rich final output without the need for programming skills.

Ensuring ROI

Increase the productivity of your content developers and ensure rapid payback by using Viewlets to replace the need for expensive training.

Cool New ! Features

LIGHTNING SPEED CREATION

Smart Capture with Automatic Annotations

No hotkey needed! Screenshots will automatically be taken whenever changes are detected and annotations will be added describing actions.

INCREASE PRODUCTIVITY WITH TIME SAVING TOOLS

Style sheets

Save valuable time and create your own style. Predetermine every element of your project - the color, the font, and font size for balloons and/notes and apply them to entire projects or individual slides!

Format Painter

Quickly copy styles from one object and, with one click, apply that format to any text object throughout your project.

Search and Replace

You no longer have to search slide by slide. Do it in one quick swoop! Search and replace a word or phrase within your entire project!

GAIN CONTROL AND FLEXIBILITY

Sound Functionality

Import MP3 files and/or add a background soundtrack to your Viewlet. With ViewletBuilder5 you can now associate sounds to objects - not just the slide!

Timeline View

New advanced timeline allows you to control the timing of every element added to the slide with a zoom feature that lets you get 100% accuracy.

ADD CREATIVITY WITH EASE

Rollover Areas

Add Rollover areas that when triggered can display another object. Great way to display hints and/or definitions.

Customizable Buttons

Want to add navigation or have a variety of actions on a slide? It's easy now. Insert customizable buttons to your project and associate various actions to each one.

Events and Actions

Multiple actions like play Viewlet, play sound or play movie can be assigned to various events like on click, on rollover and roll out.

Import SWF Files

Add animations to any of your slides. You can now embed and playback SWF movies on a slide or assign it as an action to an event.

Creative ViewletSkins

New ViewletSkins now come with the option of having a table of contents and status bar. Choose from a variety of styles - you're sure to find one that suits you!

Viewlet

The most effective and intuitive online presentation media.

That is why Viewlets have become the online presentation format of choice for more than 50% of Fortune 100 companies. With over five million demos on the Web, Viewlets are among the most popular ways of sharing information, providing technical support, presenting products and training new employees. A quick animated demo gets the point across much more effectively than words on a page.

Join thousands of organizations who use ViewletBuilder for

Training

- ⊗ Reduce Travel Expenses
- ⊗ Improve Productivity
- ⊗ Facilitate Learning

Support

- ⊗ Lower Costs
- ⊗ Expand Reach to Customers
- ⊗ Increase Customer Retention

Sales and Marketing

- ⊗ Shrink Sales Cycles
- ⊗ Slash Costs
- ⊗ Accelerate Marketing Campaigns

System Requirements

- ⊗ Windows 98 / 98SE / 2000 / XP / Vista
- ⊗ Intel P3 / AMD K6 550 Mhz
- ⊗ 512 MB RAM (1GB Recommended)
- ⊗ 16 bit+ Video card - 800x600 min
